说明 / Notes:

1、竖井取水、水库取水主要用于一车间、二车间及采矿用水，采矿区用水从2025年12月安装水表计量，未安装水表前用水量=368078+280656-110225-435194=103315m³。 / Water from the shaft and reservoir is mainly used by Workshops 1 and 2 and for mining. Water consumption in the mining area has been metered since December 2025; before the meter was installed, water consumption was = 368078+280656-110225-435194=103315m³.

2、瓜伊河取水，不直接用于生产、生活，主要是补充水库、竖井水量。 / Water taken from the Guayi River is not used directly for production or domestic purposes; it is mainly used to replenish the reservoir and shaft water supply.
